Product Data Sheet
BASE PLATE BOLLARDS

114mm Base Plate Bollard Padlock Removable

The 114mm Removable Base Plate Bollard (Padlock Style) is a high-strength security solution designed for sites where sub-surface excavation is not possible. Combining a wider profile for increased visibility with a heavy-duty base plate, this bollard ensures reliable asset protection and flexible traffic management.

- **Access Control:** The manual padlock mechanism allows for rapid removal, making it ideal for delivery bays, emergency access routes, and shared zones.
- **Surface-Mount Versatility:** Engineered with a robust base plate for easy installation onto existing concrete surfaces without the need for core drilling.

2 YEAR WARRANTY
