Product Data Sheet

75mm X 12mm Galvanised Concrete Screw

GALVANISED SCREW BOLT – 75MM | HIGH STRENGTH CONCRETE FIXING

The 75mm Galvanised Screw Bolt is a reliable and durable solution for securing speed humps, wheel stops, and other traffic management products to concrete surfaces. Designed with a galvanised finish, this fixing is ideal for outdoor applications, offering excellent corrosion resistance in harsh weather conditions. Installation is quick and simple, just drill a hole to the required depth with a 12mm SDS (slotted drive shaft) drill bit and screw the bolt straight in. The specially engineered thread grips the concrete tightly, ensuring a secure and long-lasting hold.

Key Features

- High-strength 75mm length for secure concrete fixing
- Galvanised finish for superior corrosion resistance
- Perfect for fixing speed humps, wheel stops, and similar products
- Thread design provides maximum grip in concrete
- Easy, fast, and efficient installation

Technical Specifications

- Length: 75mm
- Diameter: 12mm
- Weight: 0.15kg
- Finish: Galvanised
- Gauge: 12mm
- Warranty: 12 Months

Frequently Asked Questions

Can these be used outdoors?
Yes, the galvanised finish offers excellent weather resistance for outdoor applications.

Do I need a wall plug?
No, these bolts are designed to screw directly into concrete without the need for plugs.

What tools are required for installation?
You'll need a 12mm SDS drill bit and an appropriate wrench or socket driver.

Are they reusable?
While removal is possible, reusing may reduce grip strength; new bolts are recommended for maximum security.

ABOUT US

Bollardshop Ltd is a family owned and operated business that was established in 2006.

HOW TO ORDER

You can order and pay directly on our website or contact our professional and friendly team who will process your order on the phone.
